Wealth Inheritance Skills

Our clients include adolescents and young adults developing their wealth inheritance skills as well as individuals and families who come into wealth at an older age. Our approach is highly customized to reflect the unique circumstances of each client and we build on each client's life experiences to develop money skills. Working with us, you will:

- Acquire money skills including: tracking your money, setting and living within a spending plan, spending wisely, saving, investing shrewdly, negotiating, managing credit appropriately and approaching [philanthropy](#) strategically
- Develop your life vision and purpose - including lifestyle, career, philanthropic and volunteer choices - and assess your financial options in light of your values and goals
- Make sense of the money messages and beliefs that influence you as well as the impact money has on your life and relationships
- Cultivate skills to [communicate](#) effectively around delicate and potentially inflammatory money issues
- Understand how to resolve money conflicts
- Learn how to select and work skillfully with your advisory team
